IDEALS

Girideepam School Boarding is a home away from home for children seeking admission in the school. They decide to stay in the boarding for reasons of their own. Whatever the reason we try to create a homely atmosphere in the Boarding. Those In-charge of the children will be conscious of their role as parents and guardians and children will also have to bear in mind that people looking after them are to be treated and respected as their parents. Therefore the approach of the staff in the Boarding will be, as given in the School Handbook, strict and exacting, but kind and paternal. Expelling from the Boarding will be the last resort of disciplinary action and that too, making them understand their non-willingness to co-operate with the Boarding training system.

Bethany Fathers together with some residential staff work as a team to attain what Bethany expects of its educational institutions. To quote constitution for Bethany Ashram educational institutions, "in accordance with the charism of this congregation we try to make education an effective instrument of transforming human being socially cultured, emotionally mature, physically fit, mentally healthy and spiritually visioned. It is to build up a society where, the principle of social justice, equality of opportunity, genuine freedom and respect for religious and moral values prevail. Ultimately it is to prepare all men to know Jesus Christ the son of God, who is the way, the truth and the life (Jn. 14:6)".
